INCLUSIVE ACCESS

▶ WHAT IT IS?

Inclusive Access (IA for short) is a low-cost, digital course materials program accessible the first day of classes. The adopted digital course materials, program details, content pricing, and opt-out capability will all reside in the campus LMS for participating courses, providing full transparency to students about the course arrangement.

▶ HOW DO I PAY FOR AUTO ACCESS?

Digital access fees are billed two weeks after the start of classes. After that, all enrolled students who have not explicitly opted-out of the program, or dropped the course, will have the fees applied to their student billing account.

▶ WILL FINANCIAL AID COVER THE COST?

Yes, Financial Aid covers the cost of IA as it is a required course material. After 2 weeks your student account will be charged, and fees will be subtracted from any remaining Financial Aid once tuition has been taken out.

▶ HOW DO I ACCESS MY COURSE MATERIALS?

Simply login to your course in Blackboard and navigate to the course page for each participating course.

▶ HOW DO I OPT-OUT?

Students will see the option to opt-out regularly throughout the add/drop period in the program messaging details that appear once signed into their course in Blackboard.

▶ WHAT DOES IT MEAN TO OPT-OUT?

If you do not wish to purchase the required course materials through the IA program, you have until the drop deadline to opt-out. If you opt-out by the deadline, access to the digital course materials will be turned off. However, if planning to remain enrolled in the course, you will need to purchase these materials somewhere other than the Bookstore.
